Education

B.Tech. in Computer Science and Engineering

2022 - 2026

VIT Bhopal University: CGPA-8.91/10

Class XII Nazareth Academy, Bihar : Percentage: 93%

2020-2021

Class X Nazareth Academy, Bihar : Percentage:92.3%

2018-2019

Technical Skills

Languages: C++, Java, JavaScript, HTML, CSS

Frameworks: NodeJS, ReactJS

Databases: MongoDB, MySQL

Core Concepts: Data Structures and Algorithms, OOPs, DBMS, Operating Systems, Computer Networks

Projects

Alumni-Student Connection Platform | React, Vite, Tailwind CSS, Express.js, MongoDB

🕒 Jan 2025

- Built a social media platform connecting alumni, students, and faculty, enhancing networking and career opportunities.
- Improved job discovery through an intuitive interface and an AI-driven recommendation system, boosting user engagement.
- Integrated secure user authentication (99.9% uptime) and scalable data management, ensuring seamless interactions.
- Optimized database queries, reducing data retrieval time by 45% for faster content loading and improved user experience.
- Developed a personalized AI chatbot to assist users with event discovery, job recommendations, and networking guidance.

NAGARSAATHI- Powering Civic Tech for Every Ward | MERN, Google OAuth , ML

🕒 Ongoing

- Currently building a MERN-based web app for users to register, choose their ward, and file complaints (safety, water, drainage, waste) with real-time status tracking.
- Implementing QR code scanning to enable direct access to the complaint form, improving ease of use and accessibility.
- Designing an admin panel for officials to view complaints, update statuses, and monitor ward-wise reports.
- Deployed a two-step verification process for administrative access, which streamlined user authentication and reduced potential data exposure incidents by reinforcing the protection of customer complaint information.
- Integrating AI/ML models to analyse complaint trends, predict severe issues, and suggest data-driven solutions

Internships

Software Development Engineer Intern

Remote

Bluestock Fintech

1 Dec 24 – 31 Jan 2025

- Developed a Full Stack Web application (Admin App for Adding Financial Data) and API Endpoint for Mobile App that provides Stock Market Listed Nifty-100 Companies Fundamental information to the public.

Achievements

- **Hackathon Participation:** Recognized as a Next-Gen Thinker at Providence Leap Ideathon. Proposed an SMS and voice-based data collection solution, enhancing healthcare access for 10,000+ underserved individuals and improving data accuracy by 30% through ML integration.
- **Algorithmic Solutions Development:** Solved 300+ problems on GeeksforGeeks & 150+ on LeetCode, specializing in DSA (Java). Achieved university rank 470 on GFG, demonstrating analytical and coding proficiency.

Certifications

- Cloud Computing – NPTEL, IIT Kharagpur May, 2024
- Winter Internship Technical Training Program – India Space Lab Jan, 2025
- Marketing Analytics-NPTEL, IIT Kharagpur April, 2025
